As per the recent India Economic Survey the estimated GDP growth rate for 2017-18 is 6.75%. The GDP growth rate of 7.2% attained in Q3FY18 was higher than 6.5% in Q2FY18, despite the hiccups to the economy in the form of introduction of Goods & Service Taxes (GST) and after effects of demonetization.

As per IMF, “India’s long-term growth has become more steady, stable, diversified and resilient. In the long-run, for higher growth to be sustainable and inclusive, India needs to use land and water, which are increasingly becoming scarce resources, more productively, make growth more inclusive, and strengthen its public sector to meet the challenges of a fast growing, globalizing and increasingly middle-class economy,”

Your company agrees to this view held on India as a growth story which is unfolding. Notwithstanding the structural reforms that have already been implemented we feel confident on India’s economic performance to remain strong in the years to come by.

The Directors of your company are pleased to present the 19th Annual Report on the business and operations of Your Company with the audited financial statements and the auditors’ report for the financial year ended March 31, 2018.

Growth Engines:

The Indian infrastructure industry comprising of development of roads, metro, bridges etc. has been the backbone and a major driving force of the economy. The government has been resurgent in allocating around ₹ 600 bn towards infrastructure spends, also supporting an additional budgetary allocation towards MoRTH which has increased to ₹ 710 bn. This presents your company with immense opportunities to grow, given the plethora of expertise it possesses in these business verticals.

As you are all aware your company is deeply focused in executing projects in the Metro Rail and Flyovers. This is a vertical is at the heart of the business with revenues flowing to the tune of 28%. The order book for the year ahead is built on projects from Mumbai Metro and name of other projects that garner in excess of 53% to the FY18 topline. The efforts are also on to bid for Mumbai Metro Line-6 and Line-4, and Pune too. We are also bidding for high value urban transport projects (roads, metro rail) in Maharashtra, Gujarat, and Delhi.

Your company is confident in bagging new orders in the range of ₹ 40-50 bn in FY19, of which 50-60% order book focused would more towards Metros while the balance will be distributed among civil work, roads, flyovers etc. If you recollect your company had made investments in tunnel boring machines and we would like to announce that investments in these 3 machines have now gone live from September 2018. This investment opens up more opportunities from this business segment. This only strengthens our conviction of higher growth and better revenue visibility in the years to come by.

Your company has guided for capital outlay for FY19 in the range of Rs.0.5-1.0bn, these investments will be funded by debt and will support

future business growth.

Healthy Order Book:

The order book position stands at ₹ 74 bn as on March 31, 2018. During the first quarter of FY19, your company had guided for full year revenue of ₹ 23-24 bn. Your company has been able to surpass the expectations with its focused and strategic execution.

Your company continues to remain ambitious and will strive for growth. Your company has decided to participate in smaller projects with order sizes ranging from ₹ 2 bn to ₹ 10 bn and has enforced this view by expressing interest in bidding for Metro lines 5, 6 and extension of line 7. Metro projects will be spread across Mumbai, Delhi, Ahmedabad, Pune and Surat.

In the year ahead growth will be augmented not only from existing projects but also new projects which mainly comprise of LOA from Maharashtra Metro Rail Corporation Limited (Pune Metro Rail Project). Mumbai Metro elevated lines 2A and 7 are expected to be completed by 2019 and underground project by 2021.

Risk Management:

Region based concentration: Your Company has maximum concentration of the projects in Mumbai which poses a challenge in case of any uncertainties.

Solution: In order to cushion itself from such a risk your company is now diversifying its projects and is now looking beyond Mumbai for projects. Your company with the expertise and competencies it possess has decided to replicate its successful execution in other cities there by enabling to bag contracts of varying complexities and order sizes.

Project centered on Metro's & Flyovers: Your Company mainly derives maximum revenues from the metro railway projects and flyovers.

Solution: The investment's in tunnel boring machines ensures a new path of lapping up revenues thus gradually making the efforts to de-risk from its existing revenue model.

Your Company has a system-based approach to business risk management. Backed by strong internal control systems, the current risk management framework consists of the following elements:

The Corporate Governance Policy clearly lays down the roles and responsibilities of the various entities in relation to risk management. A range of responsibilities, from the strategic to the operational, is specified in the Governance Policy. These roles are aimed at ensuring formulation of appropriate risk management policies and procedures, their effective implementation and independent monitoring and reporting by Internal Audit.

The Corporate Risk Management Cell works with the businesses to establish and monitor the specific profiles including both strategic risks and operational risks. The process includes the prioritization of risks, selection of appropriate mitigation strategies and periodic reviews of the progress on the management of risks.

A combination of centrally issued policies and divisionally-evolved procedures brings robustness to the process of ensuring business risks are effectively addressed.

INDEPENDENT AUDITOR'S REPORT

To the Members of
J. Kumar Infraprojects Limited

Report on Financial Statements

1. We have audited the accompanying Ind AS financial statements of J. Kumar Infraprojects Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2018, and the Statement of Profit and Loss (including Other comprehensive income), the Cash Flow Statement, the statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

2. The Management and Board of Directors of the Company are responsible for the matter stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of financial statements that give a true and fair view of the states of affairs (financial position), financial performance including other comprehensive income, cash flows and changes in equity of the company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provision of the act for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgement and estimates that are reasonable and prudent; design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatements.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation and presentation of the Ind AS financial statements, that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by company's management and Board of Directors, as well as evaluating the overall presentation of the Ind AS financial statements.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

6. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the company as at March 31, 2018, its Financial Performance including Other comprehensive income and its Cash flows and Changes in equity for the year ended on that date.

Other Matters

7. We did not audit the financial statements and other financial information of 19 joint operations included in the Ind AS financial statements of the Company whose financial statements reflect total assets of ₹ 1,51,156.51 Lakh as at March 31, 2018, total revenues of ₹ 1,53,370.16 Lakh, total profit after tax (net) of ₹ 2,345.35 Lakh and total comprehensive income (net) ₹ 2,345.35 Lakh for the year ended on that date, as considered in the Ind AS financial statements. The financial statements and other financial information are unaudited whose records have been furnished to us by the management and our opinion on the Statement is not modified in respect of the above matters with respect to our reliance on the management.

During the year, the company has completed the assessment of its interest in all jointly controlled entities and based on the facts and circumstances and application of guidance given in Ind AS 111 concluded that all its jointly controlled entities are joint operations. Accordingly, adjustments have been made in the financials statements of the previous year to comply with the requirements of Ind AS 111.

Our opinion on the Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of above matters.

Report on Other Legal and Regulatory Requirements.

8. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "**Annexure A**" statement on the matters specified in paragraphs 3 and 4 of the Order.
9. As required by section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - c. The Balance Sheet, the Statement of Profit and Loss including the statement of other comprehensive income, and the Cash Flow Statement and Statement of Changes dealt with by this Report are in agreement with the books of account;
 - d. In our opinion, the aforesaid Ind AS Financial Statements comply with the applicable Accounting Standards specified under section 133 of the Act, read with rule 7 of the Companies (Accounts) Rules 2014;
 - e. In our opinion there are no observations or comments on the financial, which may have an adverse effect on the functioning of the company.
 - f. On the basis of written representations received from the directors as at March 31, 2018, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018, from being appointed as a director in terms of section 164(2) of the Act.
 - g. With respect to the adequacy of the internal financial controls over financial reporting of the company and the operating effectiveness of such controls refer to our separate report in "**Annexure B**"
 - h. In our opinion and to the best of our information and according to the explanations given to us, we report as under with respect to other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014:
 - i. The Company has disclosed the impact, if any, of pending litigations as at March 31, 2018, on its financial positions in its financial statements.
 - ii. The Company did not have any long term contract including derivative contracts; as such the question of commenting on any material foreseeable losses thereon does not arise.

J. KUMAR INFRAPROJECTS LIMITED

“ANNEXURE B” TO THE INDEPENDENT AUDITOR’S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of J. Kumar Infraprojects Ltd, the Company as of March 31, 2018 in conjunction with our audit of the financial statement of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Board of Director’s is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any

evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS FOR THE MARCH 31, 2018

1 Corporate Information

These statements comprise financial statements of J Kumar Infraprojects Limited (CIN: L74210MH1999PLC122886) ('the company') for the year ended March 31, 2018. The company is a public company domiciled in India and is incorporated on December 2, 1999 under the provisions of the Companies Act applicable in India. Its shares are listed on two recognised stock exchanges in India. The registered office of the company is located at 16-A, Andheri Industrial Estate, Veera Desai Road, Andheri (West), Mumbai 400053.

The Company is engaged in the business of execution of contracts of various infrastructure projects including Transportation Engineering, Irrigation Projects, Civil Construction and Piling Work etc.

The Financial Statements of the Company for the year ended March 31, 2018 were authorised for issue by the Board of Directors on May 29, 2018

2 Significant Accounting Policies

2.1 Basis of preparation

(a) Compliance with Ind AS:

The Financial Statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended and Companies (Indian Accounting Standards) Amendment Rules, 2016 (Ind AS) . The Financial Statements comply in all material respects with Ind AS.

(b) Historical cost convention

The Financial Statements have been prepared on a historical cost basis, except for the following:

- a. certain financial assets and liabilities that are measured at fair value;
- b. defined benefit plans - plan assets measured at fair value;

The Financial Statements are presented in Indian Rupees ('₹') which is the functional and presentational currency and all values are rounded to the nearest Lakh, except otherwise indicated.

(c) Recent Accounting Pronouncements

Standards issued but not yet effective:

Ind AS 115 - Revenue from Contracts with Customers

Ind AS 115 was issued in February 2016 and establishes a five-step model to account for revenue arising from contracts with customers. Under Ind AS 115 revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The new revenue standard will supersede all current revenue recognition requirements under Ind AS. This standard will come into force from accounting period commencing on or after April 1, 2018. The Group will adopt the new standard on the required effective date.

2.2 Summary of significant accounting policies

(a) Property, plant and equipment:

All items of property, plant and equipment are stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. The Company follows cost model for subsequent measurement for all classes and items of property, plant and equipment.

NOTES TO FINANCIAL STATEMENTS FOR THE MARCH 31, 2018

Subsequent costs are included in the carrying amount of asset or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the Statement of Profit and Loss during the period in which they are incurred. Gains or losses arising on retirement or disposal of assets are recognised in the Profit or Loss.

Spare parts, stand-by equipment and servicing equipment are recognised as property, plant and equipment if they meet the definition of property, plant and equipment.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as 'Capital work-in-progress'.

Depreciation on Tangible Fixed Assets is provided on Straight Line Method on the basis of useful life of assets specified in Part C of Schedule II of the Companies Act, 2013.

Property, plant and equipment which are added / disposed off during the year, depreciation is provided on pro-rata basis with reference to the day of addition / deletion.

Gains and losses on disposals are determined by comparing the proceeds with the carrying method.

The residual values are not more than 5% of the original cost of the asset, wherever applicable.

The residual values, useful lives and method of depreciation of property, plant and equipment are reviewed at each financial year end and any changes there-in are considered as change in estimate and accounted prospectively.

(b) Investment properties:

Property that is held for long-term rental yields or for capital appreciation or both, and that is not in use by the Company, is classified as investment property. Land held for a currently undetermined future use is also classified as an investment property.

Investment property is measured initially at its acquisition cost, including related transaction costs and where applicable borrowing costs and are carried at cost less accumulated impairment losses.

(c) Impairment of fixed assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. Impairment losses are recognised in statement of profit and loss.

(d) Inventories:

Inventories are carried in the balance sheet as follows:

(i) Raw materials, components, stores and spares :

Raw materials, components, stores and spares are valued at lower of cost or net realisable value. Cost is determined on a FIFO basis and includes all applicable duties and taxes.

NOTES TO FINANCIAL STATEMENTS FOR THE MARCH 31, 2018

(ii) **Contract Work-in-progress:**

Costs incurred that relate to future activities on the contract are recognised as contract work-in-progress. Contract work-in-progress comprises of construction cost and other directly attributable overhead valued at cost.

The cost of inventories have been computed to include all cost of purchases, cost of conversion and other related costs incurred in bringing the inventories to their present location and condition. Goods and materials in transit are valued at actual cost incurred upto the date of Balance Sheet.

(iii) **Cash and cash equivalents:**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

(e) **Statement of Cash Flows:**

Cash flows are reported using the “indirect method”, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

(f) **Foreign currency transactions:**

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in statement of profit and loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

The Company has opted to continue the Accounting Policy availed under para 46A of “Accounting Standard 11 The Effects of Changes in Foreign Currency Rates” of previous GAAP inserted vide notification dated December 29, 2011 issued by Ministry of Corporate Affairs, Government of India. Paragraph D13AA of Ind AS 101 allows an entity to continue this Accounting Policy availed under previous GAAP for all outstanding long-term foreign currency monetary items as on March 31, 2016. Consequently, foreign exchange difference on account of long-term foreign currency borrowings utilized to acquire a depreciable asset is adjusted in the cost of the depreciable asset, which will be depreciated over the balance useful life of the asset.

(g) **Revenue recognition:**

(i) **Accounting of Construction Contracts**

The Company follows the percentage completion method, based on the stage of completion at the Balance Sheet date, taking into account the contractual price and revision thereto by estimating total revenue including claims/ variations as per Ind AS 11, Construction Contracts, and total cost till completion of the contract and the profit so determined proportionate to the percentage of the actual work done.

(ii) **Accounting for Claims**

Claims are accounted as income in the period of receipt of arbitration award or acceptance by client or evidence of acceptance received.

(iii) **Accounting of Sale of Goods**

Revenue from supply contract is recognised when the substantial risk and rewards of ownership is transferred to the buyer, which is generally on dispatch, and the collectability is reasonably measured. Revenue from product sales are shown as net of all applicable taxes and discounts.

NOTES TO FINANCIAL STATEMENTS FOR THE MARCH 31, 2018

(iv) Interest income

Interest income is recognised on a time proportion basis taking into account the amount outstanding using the effective interest rate method.

(v) Dividend income

Revenue is recognised when the company's right to receive the payment is established.

(h) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

(i) Company as a lessee:

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the company is classified as a finance lease.

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased asset or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term, unless the payments are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases

(ii) Company as a lessor:

Leases in which the company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases or another systematic basis is available.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the company to the lessee. Amounts due from lessees under finance leases are recorded as receivables. Finance lease income is allocated to accounting periods to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

(i) Employee Benefits

(i) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

(ii) Post-Employment Benefits

The company operates the following post-employment schemes:

NOTES TO FINANCIAL STATEMENTS FOR THE MARCH 31, 2018

- (i) defined benefit plans and
- (ii) defined contribution plans

Defined benefit plans - Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans - Provident fund

The company pays provident fund contributions to publicly administered provident funds as per local regulations. The company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(j) Borrowing Costs:

Borrowing costs attributable to the acquisition or construction of qualifying assets. Borrowing costs are capitalized as part of the cost of such asset up to the date when the asset is ready for its intended use. All other borrowing costs are expensed as incurred. Borrowing costs consist of interest and other cost that an entity incurs in connection with the borrowing of funds. Borrowing cost includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(k) Earnings Per Share:

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue; bonus element in a rights issue, share split; and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(l) Taxes on Income:

Income tax expense comprises current and deferred tax. It is recognised in the statement of profit and loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

NOTES TO FINANCIAL STATEMENTS FOR THE MARCH 31, 2018

(i) Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI (Other Comprehensive Income) or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

(m) Provisions, Contingent liabilities, Contingent assets and Commitments:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The

NOTES TO FINANCIAL STATEMENTS FOR THE MARCH 31, 2018

expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability is disclosed in the case of:

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation
- a present obligation arising from past events, when no reliable estimate is possible
- a possible obligation arising from past events, unless the probability of outflow of resources is remote. Commitments include the amount of purchase order (net of advances) issued to parties for completion of assets. Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

(n) Current and Non-current Classification:

The Company's presents assets and liabilities in the balance sheet are based on current/non-current classification.

An asset as current when it is:

- Expected to be realised or intended to sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, Or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, Or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

Deferred tax assets / liabilities are classified as non-current.

All other liabilities are classified as non-current.

(o) Fair Value Measurement:

The Company measures financial instruments of certain investments at fair value, at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

NOTES TO FINANCIAL STATEMENTS FOR THE MARCH 31, 2018

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(p) Financial instruments

Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial assets:

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

Initial recognition and measurement

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit and Loss.

Subsequent measurement

After initial recognition, financial assets (other than investments in subsidiaries and joint ventures) are measured either at:

- i) fair value (either through other comprehensive income or through profit or loss) or,
- ii) amortized cost

Measured at amortized cost:

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect

NOTES TO FINANCIAL STATEMENTS FOR THE MARCH 31, 2018

contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortized cost using the effective interest rate ('EIR') method less impairment, if any, the amortization of EIR and loss arising from impairment, if any is recognized in the Statement of Profit and Loss.

Measured at fair value through other comprehensive income (FVOCI):

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI) net of taxes.

Interest income measured using the EIR method and impairment losses, if any are recognized in Profit and Loss.

Gains or Losses on De-recognition

In case of investment in equity instruments classified as the FVOCI, the gains or losses on de-recognition are re-classified to retained earnings.

In case of Investments in debt instruments classified as the FVOCI, the gains or losses on de-recognition are reclassified to statement of Profit and Loss.

Measured at fair value through profit or loss (FVTPL):

A financial asset not classified as either amortized cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognized as 'other income' in the Statement of Profit and Loss.

The Company measures all its investments in equity (other than investments in subsidiaries and joint ventures) and mutual funds at FVTPL.

Changes in the fair value of financial assets measured at fair value through profit or loss are recognized in Profit and Loss.

Impairment losses (and reversal of impairment losses) on equity investments measured at FVTPL are recognised in Profit and Loss.

Impairment of financial assets:

The Company assesses on a forward looking basis the expected credit losses associated with its financial assets carried at amortized cost, FVTPL and FVOCI and debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivable only, the Company applies the simplified approach permitted by Ind AS - 109 Financial Instruments,

De-recognition:

A financial asset is de-recognized only when

- i) The Company has transferred the rights to receive cash flows from the financial asset or
- ii) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is de-recognized.

Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not de-recognized.

NOTES TO FINANCIAL STATEMENTS FOR THE MARCH 31, 2018

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognized if the Company has not retained control of the financial asset.

Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

(ii) Financial liabilities

Classification as debt or equity

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Initial recognition and measurement

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at fair value.

Subsequent measurement

Financial liabilities other than those measured at fair value through profit and loss are subsequently measured at amortized cost using the effective interest rate method. The Company measures all debt instruments at amortised.

Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognized in Profit and Loss.

De-recognition.

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires.

Offsetting financial instruments:

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty

(q) Investment in Subsidiary and Joint Ventures

The Company's investment in its subsidiaries and joint ventures are carried at cost.

(r) Interest in Joint Arrangements

Under Ind AS 111 Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Company has joint operations.

Joint operations

The Company recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the financial statements under the appropriate headings.

(s) Segment Reporting - Identification of Segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's chief operating decision maker to make decisions for

NOTES TO FINANCIAL STATEMENTS FOR THE MARCH 31, 2018

which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the chief operating decision maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

3 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's Financial Statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements, Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(a) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount.

(b) Estimation of Defined benefit obligations/ plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(c) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's history, existing market conditions as well as forward looking estimates at the end of each reporting period.

a) Defined benefit plans - Gratuity

The company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of five years are eligible for gratuity. The amount of gratuity payable on retirement/ termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied by number of years of service.

The gratuity plan is a funded plan and the company makes contributions to recognised funds in India. The company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

The amount recognised in the balance sheet and the movement in the net defined benefit obligation over the period are as follows

The management assessed that the fair value of cash and cash equivalent, trade receivables, trade payables, and other current financial assets and liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

The fair values for loans, security deposits and other non current assets were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the Fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risk.

The fair values of non current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

ii. Fair Value Hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measure at fair value. To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into three levels prescribed under the accounting standard. An explanation of each level follows underneath the table:

NOTES TO FINANCIAL STATEMENTS FOR THE MARCH 31, 2018

There have been no transfers among Level 1, Level 2 and Level 3 during the period

Level 1 - Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2 - The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3 - If one or more of the significant inputs are not based on observable market data, the instrument is included in level 3.

iii. Valuation technique used to determine fair value

Specific Valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of interest rate swaps is calculated as the present value of the estimated future cash flows based on observable yield curves
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis

iv. Valuation processes

The finance department of the company includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. This team reports directly to the chief financial officer (CFO) and the audit committee. Discussions of valuation processes and results are held between the CFO, AC and the valuation team at least once every three months, in line with the company's quarterly reporting periods.

36. FINANCIAL RISK MANAGEMENT

The company's activity expose it to market risk, liquidity risk and credit risk. The company's focus is to foresee the unpredictability of financial risk and to address the issue to minimize the potential adverse effects of its financial performance. In order to minimise any adverse effects on the financial performance of the company, derivative financial instruments, such as interest rate swaps to hedge variable interest rate exposures. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements.

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the company's management.

(A) Credit risk

Credit risk refers to the risk for a counter party default on its contractual obligation resulting a financial loss to the company. The maximum exposure of the financial assets represents trade receivables, work in progress and receivables.

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹ 52,877.31 Lakh and ₹ 48,614.30 Lakh as of March 31, 2018 and March 31, 2017, respectively. However the Company has its major revenue from companies mainly consisting of government promoted entities having strong credit worthiness, Hence the exposure to credit risk is not material.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units with high credit rating mutual funds.

NOTES TO FINANCIAL STATEMENTS FOR THE MARCH 31, 2018

(B) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Long-term borrowings generally mature between 1 and 5 years. Liquidity is reviewed on a daily basis based on weekly cash flow forecast.

The Company had a working capital of ₹ 52,202.90 Lakh as of March 31, 2018 and ₹ 61,193.17 Lakhs as of March 31, 2017. The Company is confident of managing its financial obligation through short term borrowing and liquidity management.

(C) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of change in market prices. Market risk comprises three types of risk: foreign currency risk, interest rate risk and other price risk such as equity price risk and commodity risk.

(i) Foreign currency risk

“Foreign currency risk is the risk of impact related to fair value or future cash flows of an exposure in foreign currency, which fluctuate due to changes in foreign exchange rates. The Company’s exposure to the risk of changes in foreign exchange rates relates primarily to the external commercial borrowings and foreign receivables.

The Company evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies and standard operating procedures to mitigate the risks.”

(a) Foreign currency risk exposure

(₹ in Lakh)

Particulars	As at March 31, 2018

	As at March 31, 2017
Trade Receivables	6,439.93
Foreign Currency Loans	(877.32)
Trade Payables	(297.08)
Net exposure to foreign currency risk	5,265.54

(b) Foreign currency sensitivity

1% increase or decrease in foreign exchange rates will have the following impact on profit before tax:

Particulars	2017-18		2016-17	
	1% Increase	1% Decrease	1% Increase	1% Decrease
Foreign Currency	(23.13)	23.13	52.66	(52.66)
Net Increase/(decrease) in profit or loss	(23.13)	23.13	52.66	(52.66)

(ii) Interest rate risk

The company's main interest rate risk arises from borrowings with variable rates, which expose the company to cash flow interest rate risk. Company's policy is to maintain most of its borrowings at fixed rate using interest rate swaps to achieve this when necessary. During March 31, 2018 and March 31, 2017, the company's borrowings at variable rate were mainly denominated in USD.

The company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market

The company manages its cash flow interest rate risk by using floating-to-fixed interest rate swaps. Under these swaps, the company agrees with other parties to exchange, at specified intervals (mainly quarterly), the difference between fixed contract rates and floating rate interest amounts calculated by reference to the agreed notional principal amounts. Generally, the company raises long-term borrowings at floating rates and swaps them into fixed rates that are lower than those available if the company borrowed at fixed rates directly.

(a) Interest rate risk exposure

The exposure of the company's borrowing to interest rate changes at the end of the reporting period are as follows:

(₹ in Lakh)

Particulars	As at March 31, 2018	As at March 31, 2017

Variable Borrowings	4,292.69	-
Interest rate swaps (notional principal amount)	(4,292.69)	-
Net exposure to cash flow interest rate risk	-	-

(iii) Price risk

Equity instruments/Mutual Funds price risk - The company's exposure to listed equity instruments and mutual funds price risk arises from investments held by the company and classified in the balance sheet at fair value through profit or loss.

To manage its price risk arising from investments in equity instruments and mutual funds, the company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the company.

Profit for the period would increase/decrease as a result of gains/losses on equity instruments/mutual funds classified as at fair value through profit or loss.

37. CAPITAL MANAGEMENT

The Company's capital management objective is to maximise the total shareholder return by optimising cost of capital through flexible capital structure that supports growth. Further, the Company ensures optimal credit risk profile to maintain/enhance credit rating.

The Company determines the amount of capital required on the basis of annual operating plan and long-term strategic plans. The funding requirements are met through internal accruals and long-term/short-term borrowings. The Company monitors the capital structure on the basis of gearing ratio and maturity profile of the overall debt portfolio of the Company.

For the purpose of capital management, capital includes issued equity capital, securities premium and all other revenue reserves. Net debt includes all long and short-term borrowings as reduced by cash and cash equivalents and other bank balances.
