

WASTE MANAGEMENT POLICY

J. KUMAR INFRAPROJECTS LIMITED reaffirms its commitment to environmental protection by ensuring proper waste management. This Policy reflects **J. KUMAR INFRAPROJECTS LIMITED** objectives and measures to manage waste in an eco-friendly manner. This Policy affects the way of our organization handles and disposes the waste generated by the work.

- To ensure that waste management is performed in accordance with all legislative requirements, including the duty of care, and to plan for future legislative changes and to mitigate their effects.
- To minimize waste generation at source and facilitate repair, reuse and recycling over the disposal of wastes, where it is cost effective.
- To provide clearly defined roles and responsibilities to identify and co-ordinate each activity within the waste management chain.
- To promote environmental awareness in order to increase and encourage waste minimization, reuse, reduce and recycling and to make organization free from single-use plastic w.r.t. to the implementation of Swachhata hi Seva campaign.
- Adhere to applicable Indian and Maharashtra waste management regulations.
- Waste management and disposal only through licensed waste handlers/recyclers duly authorized by Maharashtra Pollution Control Board.
- Allocate sufficient space and resources for effective and efficient waste management.
- Commitment to continual improvement with participation of all.
